About These Sessions

Pennsylvania Environmental Council (PEC) and ArcheWild® are pleased to announce upcoming meadow field training sessions. These hands-on trainings build on the introductory session held on March 24 at Silver Lake Nature Center in Bristol, PA. Participants are welcome to attend any session that aligns with their interests and organizational goals. To get the most out of each training, we recommend reviewing pertinent sections of the *Practitioner's Guidebook* in advance to refresh key concepts and topics. Check the description on the registration pages for more details on what will be reviewed during each session.
